

JUDAIC STUDIES

Ilan High School's curriculum is designed to touch the heart as well as the mind of our students. As the Passuk teaches us, "Taamah Ki Tov Sachrah Lo Yichbeh Balaylah Nerah". By experiencing the scintillating joy of learning Torah, our students' pride in their heritage will forever be ignited. The Ilan High School classroom combines a rigorous level of textual skill as well as an inspiring application of lessons learned. Classes in Tanach, Halacha and Jewish History offer our students a wide range of knowledge and skill. An interactive, immersive Hebrew language curriculum strengthens the ties of our students to their People and their Homeland. Lectures by community Rabbis broaden our students foundational knowledge and create bonds that will last a lifetime. Innovative specialty courses such as, "Jewish Outlook" and "Women in Tanach" engage students in meaningful dialogue about their unique roles as Jewish women in the world today.

Rabbi David Ashear
Mrs. Bonnie Mansour

“Ilan has built a dedicated faculty who is committed to educating our children academically, emotionally, and in the traditions of our community. We would like to give special Hakarat Hatov to our community rabbis for teaching our daughters, as they take time of their community schedules, recognizing the opportunity to build a bond with them that we are certain will last long after high school.”

Mr. David Mizrahi, parent
